Objective

Python Developer/DevOPS

Education

07.2016 – OOO “Friendly”

Course: Digital radio communication

02.2017 – it-training.by

Course: Interconnecting Cisco Networking Devices, Part 1

03.2017 – it-training.by

Course: Interconnecting Cisco Networking Devices, Part 2

07.2018 – Belintersat

Course: Satellite resource use control

04.2019 – International Telecommunication Union

Course: Satellite Communication

02 – 06.2021 – Coding School TeachMeSkills

Course: Python Developer

05.2021 – Веб-разработка для начинающих: HTML и CSS (Stepic.org)

09 – 11.2021 - Python for Data Science and Machine Learning (Udemy.com)

01 – 04.2022 - Cloud and DevOPS (EPAM System)

2010-2015 - Belarusian State University of Informatics and Radioelectronics

Specialization: Telecommunications Engineer

Work experience

07.2015 – 05.2016 - State Enterprise, Telecommunications engineer.

05.2015 – 12.2018 - State Enterprise, Deputy Head of Communication Center.

12.2018 – 07.2019 - State Enterprise, Deputy Head of the Main Communication Center.

07.2019 – now - State Enterprise, Head of the Main Communication Center. Main responsibilities:

Since July 2015 up until now, I have worked in various positions for a state enterprise. During this time, I have learned to be responsible, goal-oriented, punctual, developed time management, communication and teamwork skills. Within a short time, good performance helped me to achieve a managerial position, which gave me experience in public speaking, negotiating, reporting, target-setting and control and, most importantly, in personnel management (currently I am in charge of more than 70 employees).
